## TERMS

How's my gas measured?

**CCF** - 100 cubic feet of gas. This is a measure of gas usage. One CCF is about the amount of gas used to run an average-sized house heater nonstop for one hour.

**Dekatherms (DTH)** - A measure of the heat content value of gas. Gas usage is determined by multiplying the MCF used by the heat content value of the gas.

**MCF** - 1,000 cubic feet of gas. This is a measure of gas usage.

Other Helpful Terms

**Budget Bill** - An optional billing method which averages estimated service costs over a 12-month period.

**Customer Responsibility Program (CRP)** - PGW's low income customer assistance program which provides a lower monthly bill and forgiveness of pre-program debt.

**Meter Reading Information** - PGW uses its best effort to obtain an actual meter reading regularly, and at least every six months for customers without automatic meter reading devices. When the meter is not read, PGW estimates your gas use. To avoid estimates, you may read your own meter and call us with the reading. We also offer stamped, preaddressed postcards, which you can use to send us your meter reading by the specified date. To request a supply of these cards, call (215) 235-1000, or write us at P.O. Box 3500, Philadelphia, PA 19122.

**Natural Gas Distribution Company (NGDC)** - A state regulated natural gas utility which owns the gas lines and equipment necessary to deliver natural gas to the consumer. PGW is an NGDC.

What are my charges?

*\*See the PGW Gas Service tariff on pgworks.com for full details.*

**Commodity Charges** - The charge for basic gas supply service which is sold either by volume (CCF or MCF) or heating value (DTH). These charges are passed along to customers at the price PGW pays, with no markup.

**Customer Charges** - A monthly charge to cover NGDC costs such as maintaining the lines, meter reading and billing.

**Distribution Charges** - The charge for delivery of natural gas from the point of receipt by the NGDC to the customer.

**Distribution System Improvement Charge (DSIC)** - A charge approved by the Pennsylvania Public Utility Commission (PUC) for recovery of the reasonable and prudent costs incurred to repair, improve, or replace eligible distribution property. A DSIC provides PGW with the resources to accelerate the replacement of aging infrastructure.

**Gas Cost Adjustments** - Amount billed or credited each month to account for differences between projected and actual gas supply costs of the NGDC.

**Weather Normalization Adjustment** - An adjustment approved by the PUC as a way to help PGW stabilize its income and operate more efficiently within its budget during the heating season.

**PAY WITH CASH** POSTS SAME DAY AND FREE.

## RIGHTS &amp; OBLIGATIONS

A summary of your rights and obligations as a PGW customer will be made available upon request. A rate schedule and an explanation of how to verify the accuracy of a bill and an explanation of the various charges will be made available upon request.

## SUPPLIER INFORMATION

If you have selected a Natural Gas Supplier other than PGW, the natural gas supplier is responsible for determining the rates billed for supplier charges. PGW will bill for gas delivery according to the tariff for your rate class. Commodity prices and charges are set by the Natural Gas Supplier you have chosen. The Public Utility Commission regulates the distribution prices and services.

Five dollar (\$5.00) minimum payment required with barcode. Barcode must be presented at time of payment. Participating vendors will only accept cash with barcode. Payments made with barcode must be made before 4:00 p.m. in order to post to account the same day. Payments made with barcode while termination of service is in progress will not serve to stop termination of service. For eligible accounts only.
