-------------------------	--------------

Important to know

Your next meter reading: Dec 29

Please be sure we can safely access your meter for actual readings. Don't worry if your digital meter flashes eight times from time to time. That's a normal part of the energy measuring process.

Your electric service may be disconnected if your payment is past due

If payment for your electric service is past due, we may begin disconnection procedures. If your service is disconnected because of a missed payment, you must pay the amount specified in the **Important Disconnect Information** section on your bill, as well as, a reconnection fee, before your service will be reconnected. The reconnection fee is \$10 for electric service that may be reconnected remotely, \$69 for electric service that is not eligible to be reconnected remotely, and \$17 for gas service. In such situations where both electric and gas service are disconnected for non-payment, the reconnection fee will not exceed \$27 for both.

Failure to pay may result in a return to our standard offer for generation

Failure to pay charges for a competitive retail service may result in cancellation of your contract with the respective retail electric supplier. You will then be returned to Duke Energy Ohio's standard offer for generation services.

Questions or complaints

If you have a question or complaint about your bill or service, please contact us via one of the contact options provided.

If your complaint is not resolved after contacting Duke Energy or if you need general utility information, please contact the Public Utilities Commission of Ohio (PUCO) or the Ohio Consumers' Counsel (OCC) via one of the contacts provided.

When you pay by check

We may process the payment as a regular check or convert it into a one-time electronic check payment.

Para nuestros clientes que hablan Español

Representantes bilingües están disponibles para asistirle de lunes a viernes de 7 a.m. - 7 p.m. Para obtener más información o reportar problemas con su servicio eléctrico, favor de llamar al 800.544.6900.

Your usage snapshot - continued

Current electric usage for meter number 108124189			
Actual reading on Nov 24		39865	
Previous reading on Oct 23		- 38795	
		1,070	
	Multiplier	x 20	
	Energy used	21,400 kWh	
kWh Usage	21,400	Demand Read	3.83
Actual kW	76.6		

A kilowatt-hour (kWh) is a measure of the energy used by a 1,000-watt appliance in one hour. A 10-watt LED lightbulb would take 100 hours to use 1 kWh.

A multiplier is the factor that the meter reading is multiplied by to determine the correct energy usage.
