- Hurricane Preparedness Guidelines:**
- If YOU ARE UNDERR A HURRICANE WARNING, FIND SAFE SHELTER RIGHT AWAY
- When a hurricane is 36 hours from arriving:
- Turn on your TV or radio in order to get the latest weather updates and emergency instructions.
  - Restock your emergency preparedness kit, which include food and water sufficient for at least three days, medications, a flashlight, batteries, cash, and first aid supplies. <https://www.ready.gov/build-a-kit>
  - Bookmark your city or county website for quick access to storm updates and emergency instructions.
  - Bring inside (e.g., propane tanks); and trim or remove trees close enough to fall on the building.
  - Close storm shutters, and stay away from windows. Plan to stay at home or where you are and let friends and family know where you are.
  - If you're not in an area that is recommended for evacuation, plan to stay at home or where you are in case you lose power.
  - Charge your cell phone now so you will have a full battery in case you lose power.
  - Turn on your TV/radio, or check your city/county website every 30 minutes in order to get the latest weather updates and emergency instructions.
  - When a hurricane is 6 hours from arriving
- When a hurricane is 6-18 hours from arriving
- Charge your cell phone now so you will have a full battery in case you lose power.
  - Turn on your TV/radio, or check your city/county website every 30 minutes in order to get the latest weather updates and emergency instructions.
  - Close storm shutters, and stay away from windows. Flying glass from broken windows could injure you.
  - If you're not in an area that is recommended for evacuation, plan to stay at home or where you are and let friends and family know where you are.
  - Refrigerator to be able to check the food temperature when the power is restored.
  - If you live in a building subject to flooding, go to the highest level of the building. Do not climb into a closed attic. You may become trapped by rising flood water.
  - Listen to authorities for information and special instructions.
  - Do not touch electrical equipment if it is wet or if you are standing in water. If it safe to do so, turn off electricity at the main breaker or fuse box to prevent electric shock.
  - Avoid wading in flood water, which can contain dangerous debris. Underground or downed power lines can also electrically charge the water.
- BE SAFE AFTER**
- If flooded during high winds, go to a FEMA safe room, ICC 500 storm shelter, or a small, interior, windowless room or hallway on the lowest floor that is not subject to flooding.
  - If sheltering during high winds, go to a FEMA safe room, ICC 500 storm shelter, or a small, interior, windowless room or hallway on the lowest floor that is not flooded, do so immediately. Do not drive around barricades.
  - If trapped in a building by flooding, go to the highest level of the building. Do not climb into a closed attic. You may become trapped by rising flood water.
  - Listen to authorities for information and special instructions.
  - Do not touch electrical equipment if it is wet or if you are standing in water. If it safe to do so, turn off electricity at the main breaker or fuse box to prevent electric shock.
  - Avoid wading in flood water, which can contain dangerous debris. Underground or downed power lines can also electrically charge the water.

**Notice to Customers** -- If you believe this bill includes unauthorized charges, you should contact Green Mountain Energy to dispute those charges. If not satisfied with our review, you may file a complaint with the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326, 512-936-7120 or toll-free at 1-800-735-2988.

- HURRICANE PREPAREDNESS GUIDELINES:**
- If you are under a Hurricane Warning, find safe shelter right away.
- When a hurricane is 36 hours from arriving:
- Turn on your TV or radio to get the latest weather updates and emergency instructions.
  - Restock your kit. Include food and water sufficient for at least three days, medications, a flashlight, batteries, cash, and first aid supplies. <https://www.ready.gov/build-a-kit>
  - Turn on your TV or radio to get the latest weather updates and emergency instructions.
  - Bookmark your city or county website for quick access to storm updates and emergency instructions.
  - Bring loose, lightweight objects inside that could become projectiles in high winds (e.g., patio furniture, garbage cans); anchor objects that would be unsafe to bring inside (e.g., propane tanks); and trim or remove trees close enough to fall on the building.
  - Close storm shutters, and stay away from windows. Plan to stay at home or where you are and let friends and family know where you are.
  - Turn your refrigerator or freezer to the coldest setting and open only when necessary. If you lose power, food will last longer. Keep a thermometer in the refrigerator to be able to check the food temperature when the power is restored.
  - If you're not in an area that is recommended for evacuation, plan to get to a safe room or where you are and let friends and family know where you are.
  - If you're staying with friends or family, and they have a full battery in case you lose power.
  - Charge your cell phone now so you will have a full battery in case you lose power.
  - If you're sheltering during high winds, go to a FEMA safe room, ICC 500 storm shelter, or a small, interior, windowless room or hallway on the lowest floor that is not subject to flooding.
  - If flooded to immediately, do so immediately. Do not drive around barricades.
  - If trapped in a building by flooding, go to the highest level of the building. Do not climb into a closed attic. You may become trapped by rising flood water.
  - If you're not touch electrical equipment if it is wet or if you are standing in water. If it safe to do so, turn off electricity at the main breaker or fuse box to prevent electric shock.
  - Listen to authorities for information and specific instructions.
  - Do not touch electrical equipment if it is wet or if you are standing in water. If it safe to do so, turn off electricity at the main breaker or fuse box to prevent electric shock.
  - Avoid wading in flood water, which can contain dangerous debris. Underground or downed power lines can also electrically charge the water.
- BE SAFE AFTER**

Notice to Customers -- If you believe this bill includes unauthorized charges, you should contact Green Mountain Energy to dispute those charges. If not satisfied with our review, you may file a complaint with the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326, 512-936-7120 or toll-free in Texas at 1-888-782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission at 512-936-7136 or toll-free at 1-800-735-2988.

- Notice to Customers -- If you believe this bill includes unauthorized charges, you should contact Green Mountain Energy to dispute those charges. If not satisfied with our review, you may file a complaint with the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326, 512-936-7120 or toll-free in Texas at 1-888-782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission at 512-936-7136 or toll-free at 1-800-735-2988.
- Hurricane Preparedness Checklist:
- Make an Evacuation Plan. Find activated evacuation routes here: DriveTexas.org or by dialing (800) 452-9292. Call 2-1-1 to find out if you live in an evacuation zone.
  - Sign-Up for Emergency Alerts. Make sure your device is enabled to receive Wireless Emergency Alerts (WEAs).
  - Prepare an Emergency Supply Kit. Learn how to build an emergency kit here: <https://www.ready.gov/build-a-kit>.
  - Review Your Home Insurance Policy.
  - Register with State of Texas Emergency Assistance Registry (STEAR). <https://STEAR.tdem.texas.gov/> or by dialing 2-1-1 if you live in an evacuation zone and have a disability or medical needs and do not have friends or family to help in an evacuation.
  - STEAR Registry information collected is confidential\*\*
